

## Product Specification: Type TP - Telescopic Seating

Hussey Seatway Ltd

### Description

Hussey Seatway Type TP, theatre quality telescopic seating has been developed in the UK specifically for use in theatres and performing arts facilities where a stiffer, more solid feel to the structure is required and where comfortable, full theatre chairs need to be installed.

A range of seat types can be specified but the GALLERY PC and the all new ARTS PC Chair are typical.

#### Types:

**TP- F** Wall and floor attached.

**TP- R** Recessed into wall space.

**TP- M** Mobile units for fully flexible positioning.  
(Can be moved on castors or air bearings.)

**TP- T** Travelling system. (A complete block that can be powered into a new position.)

TP systems can be opened and closed manually or by power operation

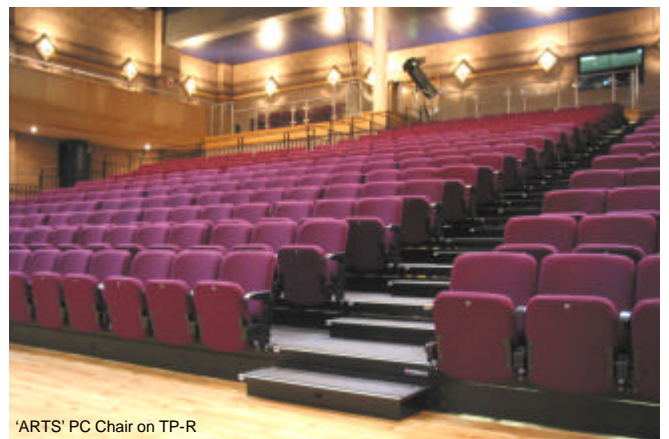

'GALLERY' Chairs on TP-R

### Applications

TP Telescopic seating is suitable for a range of applications that require both seated spectators and the multi-purpose use of floor space.

For example;

- Theatres, drama & dance studios.
- School halls and lecture theatres
- TV Studios
- Arenas and Exhibition Halls.

### Standard Dimensions

**Row Rise** 250, 260, 275, 280 & 300mm.

**Row Depth** 800, 850, 900 & 915mm

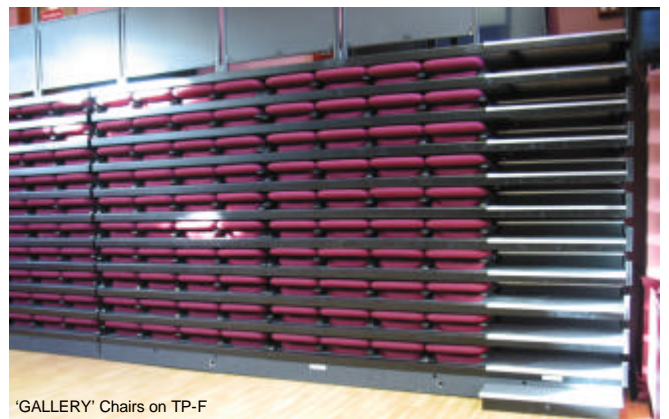

**Closed Depth** = Row Depth + 325mm.

**Closed Height** = (No. of rows x Row Rise) + 170mm.

The TP system is designed for easy customisation, so please contact our Technical dept. if these dimensions do not fit your requirement.

### Features

- Automatic, row to row, safety locking.
- Parallel guidance system for straight line operation.
- Stiff and dynamically correct under-structure that features Hussey Seatway's unique 'space frame' construction methods.
- Row to row, parallel and vertical, column interlock.
- 125mm dia. wheels as standard.
